

```
const Greeting = ({ name }) => (  
  <h1>Hello, {name}</h1>  
)  
  
// Specifies the default values for props:  
Greeting.defaultProps = {  
  name: 'Stranger'  
};  
  
// Renders "Hello, Stranger":  
ReactDOM.render(  
  <Greeting />,  
  document.getElementById( 'root' )  
)
```
